DETAILED ACTION

Allowable Subject Matter

Claims 1-4 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1 *Lin et al.* discloses a semiconductor edge emitting laser producing a circular beam output, wherein the semiconductor laser has a ridge waveguide and is composed of substrate, bottom cladding layer, bottom waveguide layer, quantum well light emitting layer, upper waveguide layer, upper cladding layer, and electrode contact layer. The ridge waveguide layer is formed by dry-etching. The light emitting layer disclosed by Lin is composed of InGaAs sandwiched by two GaAs barrier layer.

The light emitting layer disclosed by the applicant is a low-carrier-mobility layer containing low concentration of nitrides, specifically $\text{In}_v\text{Ga}_w\text{Al}_{1-v-w}\text{As}_x\text{P}_y\text{N}_z\text{Sb}_{1-x-y-z}$, such that $0 < v, w, x, y, z < 1$. Prior art of record does not disclose or suggest using the specified material as an active layer in an edge-emitting laser. The use of $\text{In}_v\text{Ga}_w\text{Al}_{1-v-w}\text{As}_x\text{P}_y\text{N}_z\text{Sb}_{1-x-y-z}$ ($0 < v, w, x, y, z < 1$) in combination with the rest of the limitations of the claims is novel.

Claims 2-4 are allowed for their dependence on the allowable claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
